SCREENSHOT OF YOUR PROJECT/CODE OPENED IN VISUAL STUDIO CODE (VS CODE)

The screenshot displays the Visual Studio Code interface with a React application project. The Explorer sidebar on the left shows the project structure, including folders like 'port_cv', 'dist', 'node_modules', 'public', 'src', 'assets', 'components', and 'data'. The 'App.tsx' file is selected in the Explorer. The main editor area shows the content of 'App.tsx', which is a React component file. The code includes imports for various components and a default function 'App()' that returns a JSX element. The JSX element consists of a 'nav' bar with a 'ThemeToggle' and a 'Printer' button, followed by a 'main' section with a 'Header' and three sections: 'Work Experience', 'Selected Work', and 'Skills'. The 'Education' section is also present. The footer displays the current date and the user's profile name.

```
1 import { Printer } from 'lucide-react'
2 import { cv } from './data/cv'
3 import { Header } from './components/Header'
4 import { Section } from './components/Section'
5 import { EducationList, ExperienceList } from './components/Timeline'
6 import { Projects } from './components/Projects'
7 import { Skills } from './components/Skills'
8 import { ThemeToggle } from './components/ThemeToggle'
9
10 export default function App() {
11   return (
12     <nav className="toolbar">
13       <ThemeToggle />
14       <button className="icon-btn" onClick={() => window.print()} aria-label="Print or save as PDF">
15         <Printer size={15} strokeWidth={1.6} />
16       </button>
17     </nav>
18
19     <main className="page">
20       <Header profile={cv.profile} />
21
22       <Section title="Work Experience">
23         <ExperienceList items={cv.experience} />
24       </Section>
25
26       <Section title="Selected Work">
27         <Projects items={cv.projects} />
28       </Section>
29
30       <Section title="Skills">
31         <Skills groups={cv.skills} />
32       </Section>
33
34       <Section title="Education">
35         <EducationList items={cv.education} />
36       </Section>
37
38       <footer className="footer">
39         <span>© {new Date().getFullYear()} {cv.profile.name}</span>
40       </footer>
41     </main>
42   )
43 }
